Dr. Jekyll & Mr. Hyde®

RIDE CLASSIC SOUND LEGENDARY

— Dr. Jekyll & Mr. Hyde | The Exhaust offers a street legal exhaust system for three models of the Triumph range. You can equip the iconic Bonneville Bobber, the agile Speed Twin and the classic Bonneville Speedmaster with the ultimate electronically adjustable exhaust system. With many years of experience within the chopper cruiser, modern classic and adventure segment, Dr. Jekyll & Mr. Hyde now offers a street legal exhaust for Triumph, that provides you with three sound modes and excellent performance, made with only premium quality materials. With a standard 4-year warranty.

THE EXHAUST

DR. JEKILL & MR. HYDE THE EXHAUST

— Dr. Jekyll & Mr. Hyde gives motorcyclists the ultimate riding experience with The Exhaust. Our electronically adjustable exhaust systems give you the possibility to adjust your sound to the moment and offer street legality, excellent performance, premium quality and 4 years warranty. These core benefits match perfectly with Triumph Motorcycles; a brand that has always been focused on a complete tailor-made riding experience.

The saying 'always a gentleman, not always a gentle man' fits the Triumph rider like a glove. Those who roam the streets on this iconic British brand like the classic rawness, the timeless designs and unmatched handling. Now let's take it up a notch with the best sound in the market. And that's where Dr. Jekyll & Mr. Hyde comes in.

Fitting perfectly into the philosophy of creating your own riding experience; a Dr. Jekyll & Mr. Hyde exhaust system is a must-have for both the modern and the old school rider. The Exhaust embodies three distinct sound modes: the Dr. Jekyll mode, the Dynamic mode and the Mr. Hyde mode. By a simple push of a button a valve inside the muffler closes, opens or opens halfway, which gives you the possibility to easily adjust your sound on the fly. Be silent when the situation requires it, be heard when it is appropriate; eloquent but still badass. Like the Triumph rider The Exhaust stands out, yet remains sophisticated.

The Exhaust is street legal and has a European Type Approval, as well as being CARB/EPA and TÜV tested. Our exhaust systems are fully compliant with the latest EURO norm and are built to achieve air quality standards. The Exhaust is a result of German engineering and Dutch craftsmanship. By riders, for riders. With state of the art technology, crafted by world-class engineers, we've created a tailor-made exhaust for each and every bike.

Grab the attention of everybody in the street with Dr. Jekyll and Mr. Hyde | The Exhaust. With a perfect sound, design and performance it is a must-have for your motorcycle. With the addition of a selection of Triumph models to our roster, we are proud to welcome a new group of riders to the Dr. Jekyll & Mr. Hyde family.

Ride classic, sound legendary.

THE BENEFITS

Model: **Bonneville Speedmaster**
Body: **King Stainless Steel Brushed**
End Cap: **3,5" Slashcut Aluminium**

DR. JEKILL & MR. HYDE THE BENEFITS

— The Jekill and Hyde Company gives motorcyclists the ultimate riding experience with The Exhaust: an electronically adjustable exhaust system which makes it possible to choose between three different modes on the fly. An exhaust second to none in regards to sound, esthetics and performance.

THREE SOUND MODES

Our exhaust systems embody three distinct personalities: the Dr. Jekill mode, the Dynamic mode and the Mr. Hyde mode. By a simple push of a button a valve inside the muffler closes, opens, or opens halfway, adjusting the sound of your exhaust.

STREET LEGAL

Dr. Jekill & Mr. Hyde | The Exhaust is a completely street legal system and complies with European legislation and laws, as well as being EC/ECE/EG/ABE/EEC/EU/EGBE and TÜV tested. Our software is programmed to intervene subtly and almost imperceptibly when the parameters set by the legislation are reached. This ensures that you are 100% legal in all sound modes.

EXCELLENT PERFORMANCE

The Exhaust offers the best power and performance for your motorcycle. With a closed valve the exhaust performs like a stock exhaust, but when the valve opens, the rumbling sound is accompanied with an increase in power. When the valve is closing again, this happens so smooth that it is hardly noticeable while riding. This ensures a safe riding experience, regardless of which mode you are riding in.

PREMIUM QUALITY

Quality is one of our most important core values. Dr. Jekill & Mr. Hyde | The Exhaust does not only look and sound great, but it is also a reliable and high quality product. Only the best materials are used for the production which are all sourced from trusted suppliers in Europe.

4 YEAR WARRANTY

At The Jekill and Hyde Company we take pride in the quality and durability of our products. Our exhausts are made to last, designed and manufactured with longevity in mind. Therefore we deliver all new exhaust systems with a standard 4 year warranty.

THREE SOUND MODES

THREE SOUND MODES

— Dr. Jekill & Mr. Hyde | The Exhaust is a smart exhaust system that gives you the ultimate riding experience. Our electronically adjustable system allows riders to control the exhaust with a push of the button mounted on the handlebar. You can choose per situation whether you

want to ride in the Dr. Jekill mode, the Dynamic mode or the Mr. Hyde mode. Be silent and become one with your surroundings when it is appropriate or make yourself heard when you want to. You decide.

Thanks to our intelligent software, the valve is always correctly positioned, making sure that you are 100% legal in all modes.

PUSH 1X FOR DR. JEKILL MODE

Dr. Jekill Mode. The Valve is closed. The Dr. Jekill mode is designed to blend in with your environment and become one with your surroundings. Perfect for long journeys and travelling through crowded areas.

PUSH 1X FOR MR. HYDE MODE

Mr. Hyde Mode. The valve is open. When your surroundings allow it, you can unleash Mr. Hyde and give your bike maximum sound. Feel the power of your bike and set free your inner beast. Experience a rumbling sensation that no stock exhaust can offer you.

PUSH 2X FOR DYNAMIC MODE

Dynamic Mode. The valve is half-way opened. The mode in between Dr. Jekill and Mr. Hyde.

STREET LEGAL

Model: **Speed Twin**
Body: **Spy Black**
Heat shield: **Black**

End Cap: **3,5" Streetfighter Aluminium**

STREET LEGAL

— Our products have a EU type approval and are thus 100% street legal. The software is programmed to intervene subtly and almost imperceptibly when the parameters set by the legislation are reached. This ensures that you are 100% legal in all sound modes.

Dr. Jekyll & Mr. Hyde products are a result of German engineering and Dutch craftsmanship. We care deeply about the environment, so all of our exhaust systems are built to achieve air quality standards.

Our engineers make sure that a Dr. Jekyll & Mr. Hyde exhaust system is 100% legal. They have created the Smartbox; the electronic control unit included with our exhaust systems has the ability to read canbus signals coming from the motorcycle's ECU. The Smartbox makes sure you will not end up on the wrong side of the law, no matter what mode you select.

But do not just take our word for it, ask the proper authorities. Before we introduce a new exhaust system it gets thoroughly tested by them and only when they approve it, a Dr. Jekyll & Mr. Hyde | The Exhaust system becomes available for your bike.

EXCELLENT PERFORMANCE

Model: **Bonneville Bobber Black**
Body: **King Black**
End Cap: **3,5" Slashcut Black**

EXCELLENT PERFORMANCE

— When unleashing Mr. Hyde you will feel an increase of power within your bike. Opening the valve gives your bike more performance and you will experience a sensation that no stock exhaust can give.

When, because of legality reasons, the system interferes and closes the valve for a moment, this is done so smoothly that you will barely notice this in the performance of your bike; making sure you always have a safe journey.

PREMIUM QUALITY

PREMIUM QUALITY

— Quality is one of our most important core values. Dr. Jekyll & Mr. Hyde | The Exhaust does not only look and sound great, it also needs to be a reliable and high quality product. Because of our years of experience and expertise, we keep on perfecting our products, making sure that the customer always rides with a state of the art and perfectly crafted exhaust system. To achieve this, all our exhaust systems need to withstand all kinds of extreme (weather)conditions and extreme heat. Therefore they are thoroughly tested, before going into production. When

all the tests are passed and an exhaust becomes available to the public, only the highest quality materials are used for the production which are all sourced from trusted suppliers in Europe.

Dr. Jekyll & Mr. Hyde | The Exhaust offers a street legal, beautifully designed exhaust. This is a result of German engineering and Dutch craftsmanship with state of the art technology, perfectly crafted by the best engineers in town.

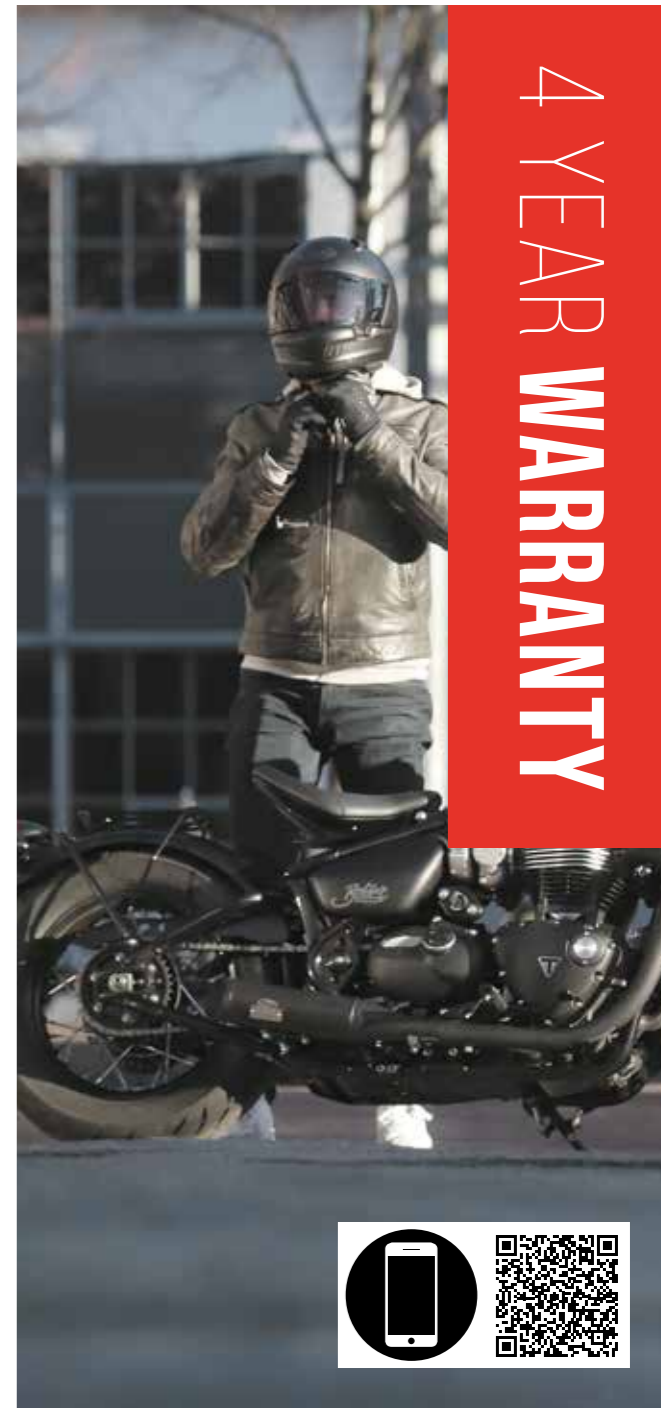

4 YEAR WARRANTY

— At Dr. Jekyll & Mr. Hyde we take pride in the quality and durability of our products. Our exhausts are made to last, designed and manufactured with longevity in mind. Therefore we deliver all new exhaust systems with a standard 4 year warranty. *

** To have an exact overview of the Dr. Jekyll & Mr. Hyde warranty terms, we invite you to read the warranty terms carefully at: jekillandhyde.com/en/warranty*

4 YEAR WARRANTY

HOW IT WORKS

HOW IT WORKS

— When riding with Dr. Jekyll & Mr. Hyde you feel the raw power of your bike and still have a carefree ride since you always remain within the limits of the law. The Exhaust consists of several (electronic) parts that all contribute to the ultimate riding experience.

01 MODE SWITCH

Push it to control your exhaust system and choose your sound mode. Looks and function may vary per country.

02 SMARTBOX

Intelligent software unit that controls the servomotors.

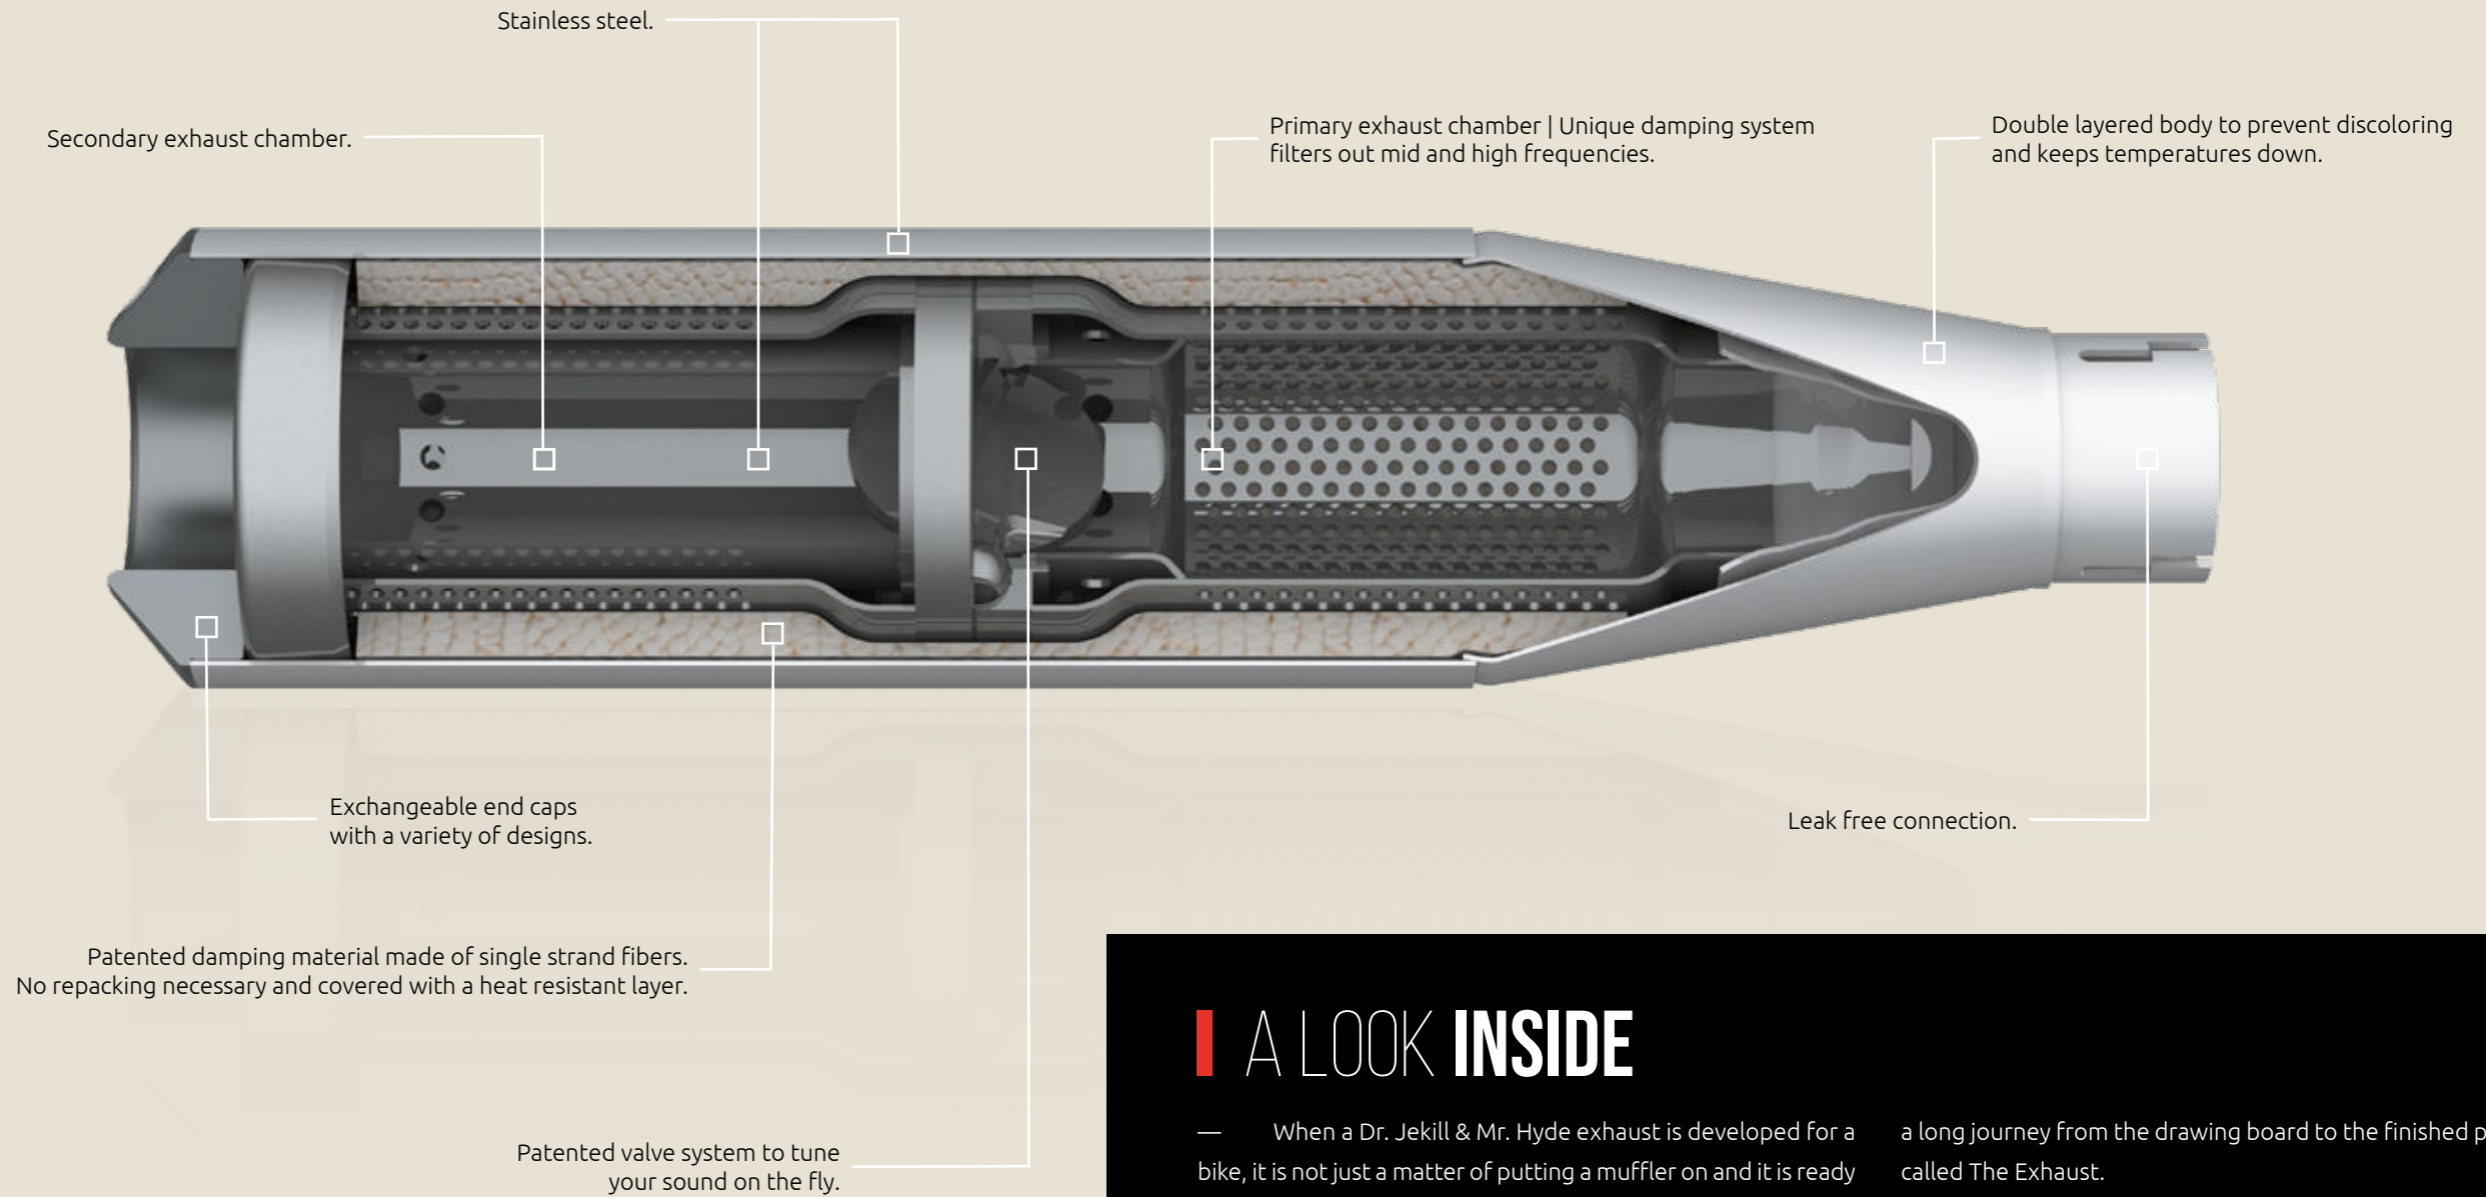

03 SERVOMOTORS

These will react to the signal of the Smartbox and position the valve in the required mode.

04 THE EXHAUST

Reacting to the servomotors our patented valve system will be positioned in the required mode.

A LOOK INSIDE

A LOOK INSIDE

— When a Dr. Jekyll & Mr. Hyde exhaust is developed for a bike, it is not just a matter of putting a muffler on and it is ready to go; our engineers have developed the perfect exhaust for your motorcycle. With computer simulations and the building of prototypes, they create an exhaust that is tailor-made for each and every bike. With all these factors coming together in our product; a Dr. Jekyll & Mr. Hyde exhaust system has made

a long journey from the drawing board to the finished product called The Exhaust.

Take a look at the cross section of The Exhaust above to see what it looks like inside, the different parts it contains and the materials which are used.

**Cross section may differ per exhaust type.*

2X PUSH 2X FOR
DYNAMIC MODE

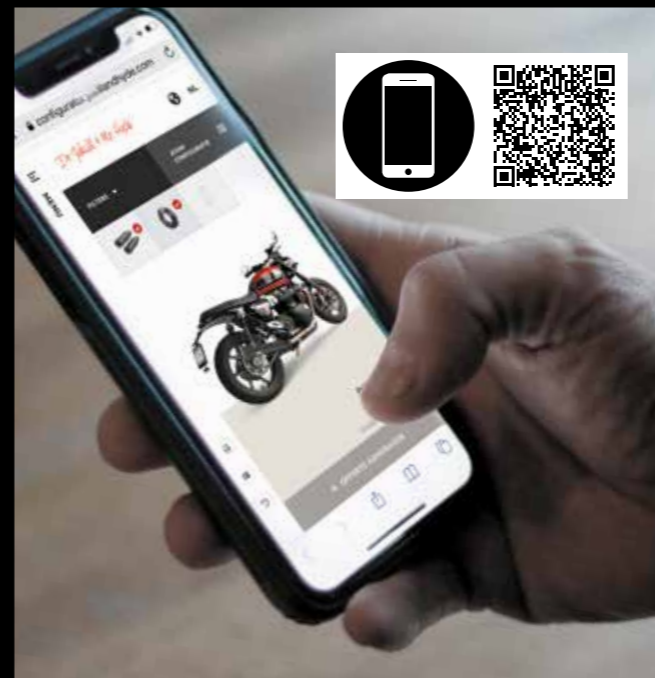

GO FOR BETTER SOUND

— When you ride in Mr. Hyde mode, the valve opens and you enjoy a deep rumbling sound that has been specially developed for your motorcycle. As a company we find it necessary that this sound is not 'loud and annoying'. Our specialized (sound) engineers have crafted a tailor-made sound for every bike that on the one hand gives riders the ultimate riding experience, but on the other hand is not a nuisance to others.

Your riding experience is accompanied with a deep bass sound without any treble or mid tones. It enhances the already characteristic sound from the Triumph engine and takes this to a whole new level. Dr. Jekyll & Mr. Hyde | The Exhaust provides you with a complete product that combines the best elements of performance, design and sound quality.

CONFIGURATOR

CONFIGURE YOURS

COMPANY WEBSITE

— The Dr. Jekyll & Mr. Hyde website is fully developed and designed with the rider in mind. Pick a motorcycle brand of choice and start your personal route to the perfect Dr. Jekyll & Mr. Hyde exhaust. And while you're at it, get inspired by our blogs and road stories or check out the coolest pictures and videos to boost your own creativity.

THREE MODELS

DR. JEKILL & MR. HYDE AND TRIUMPH MOTORCYCLES THE PERFECT FIT

— Just like Triumph Motorcycles, Dr. Jekyll & Mr. Hyde has always been focused on a complete and tailor-made riding experience. An experience where premium quality, craftsmanship and the pleasure of riding are always the center of our focus. A brand like Triumph, where eloquence meets raw power, fits well with Dr. Jekyll & Mr. Hyde; you can be silent when it is appropriate, but also let your bike rumble and roar when you want to. Take it up a notch and give that legendary bike the legendary sound it deserves.

Dr. Jekyll & Mr. Hyde | The Exhaust is available for:

- **Triumph Bonneville Speedmaster** 2017-2020
- **Triumph Bonneville Bobber** 2017-2020
- **Triumph Bonneville Bobber Black** 2017-2020
- **Triumph Speed Twin** 2020

Dr. Jekyll & Mr. Hyde | The Exhaust is available for the EURO-4 models mentioned above. While you are reading this, our engineers are already preparing new systems for the EURO-5 models. Other Triumph models will follow.

CLEANING KIT

CLEANING KIT

— At The Jekill and Hyde Company we are always looking for something extra to give our customers in addition to the ultimate adjustable exhaust. It is common knowledge that most motorcyclists clean their motorcycles with, at least, the same attention as riding it. Therefore the idea of a cleaning kit was a logical addition.

Of course it is very important that this set has to be of the same premium quality as the exhaust. Together with Motul we

started a cooperation to release a cleaning kit that would make your exhaust (and the rest of your bike) shine like never before.

CONTENTS OF THE CLEANING KIT

The Motul cleaning kit consists of the cleaning product, two microfiber cloths and a surprise giveaway. Of course it all comes in a package that is completely in Dr. Jekill & Mr. Hyde style.

EC-CARD

— Dr. Jekill & Mr. Hyde exhaust systems are completely legal and approved by all authorities. To prove the legality of the system in any given situation you can refer to the approval numbers and the serial number on the type shield on the exhaust.

EC-CARD WITH QR-CODE

Next to that you get an EC-card with your system, where you will find the specific registration numbers for your model as well

as the serial number of your exhaust system. Furthermore the card has a QR-code that you can scan with your smartphone. After scanning the code all the inspection papers corresponding with your exhaust appear on your screen. Proving once and for all the Dr. Jekill & Mr. Hyde exhaust is fully compliant with the law and legislation.

EC-CARD

OUR MISSION

OUR MISSION

— With everything we do, we want to give the ultimate riding experience. We achieve this by giving the possibility to adjust your sound to the moment and offering street legality, excellent performance and premium quality.

We want to pursue our mission and vision by maintaining and extending our world leading position in developing, manufacturing and supplying the best adjustable exhaust systems for motorcycles, always exceeding customer service expectations.
